Need to know how to access journals and articles from on campus or from home?

On and Off Campus Access of Materials

This workshop will walk you through the basic and advanced methods for accessing the articles, books, and databases that you will need for your research. We will cover accessing materials both on campus, and from home, as well as Interlibrary Loan procedures.

We will go over the procedures for getting your Graduate Center credentials set up, which will allow you to access materials from off campus, check books out from the main library, and place Interlibrary Loan requests.

This seminar will also teach you what to do in the event that you can’t access an article immediately, and will discuss other local institutions that you can make use of.

This seminar is open to both students and faculty.

Mason Brown
CUNY Grad Center Library

Date:
Tuesday, September 3, 2019

Time:
10:30 a.m. to 11:30 a.m.

Location:
ASRC — Floor 1 | Seminar Room
